

Product Group SH 500

Tension wire holder made of PA-GF for high loads (supplied without screw)

Standard Colours

- moss green RAL 6005
- black RAL 9005
- traffic grey A RAL 7042

Material

- Base body: glass fibre reinforced polyamide (PA-GF)

- The holding holes $\varnothing 8-8.1$ mm can be recut for upgrading to SH 500 with special thread M9x1.
- In this case, only custom-made screws with a large flat head and constriction in the shaft for the tension wire can be used
- sensible thread: M9x1.
