

Product Group MFAF

Machine feet made of stainless steel with vibration-damping rubber base

Standard Colours

- black

Material

- Base body: AISI 304 (A2)
- Rubber: NBR 80 Shore

Product information

- Included in the scope of delivery: 2 nuts, 1 washer, 1 tooth lock washer
- The rubber of the machine base is 10 mm thick and the surface is infused with circular veins for optimum vibration damping.
- The load capacity of the screw (buckling length!) may be less than indicated in the table.
- The machine foot is adjusted via the square on the threaded head.
- Machine tools, injection moulding units, shearing machines, vibrators, printing machines, etc. ...

Product options on inquiry

- For higher loads, a vibration-damping plate made of NBR with a hardness of 90 Shore can be supplied.
